PROFESSIONAL EXPERIENCE

Smashing Boxes DURHAM, NORTH CAROLINA

Interactive Web Designer; *MAY 2011 - PRESENT*

Responsible for designing web and mobile applications (from information architecture to wireframing to final design), identity design and photography. Working with the art director, two front-end developers and three back-end developers.

NC Department of Environmental and Natural Resources, Division of Environmental Assistance and Outreach RALEIGH, NORTH CAROLINA

Graphic Design Intern; *MAY 2010 - MAY 2011*

Design of promotional and educational resources for the three recycling campaigns in North Carolina (RecycleGuys.org, RE3.org, and RecycleMoreNC.org). Ranges from interactive maps to infographic displays to animations.

Freelance Web Designer RALEIGH, NORTH CAROLINA

SEPTEMBER 2008-PRESENT

Design and build websites for clients using clean HTML, CSS, PHP, Wordpress and various plugins.

AIGA New Context and New Practices Conference RALEIGH, NORTH CAROLINA

Video Editor, Volunteer; *SEPTEMBER 2010*

Recommended volunteer and video editor. Part of a three person team that edited video from various speakers by placing slides and exporting for web based viewing.

NC State University, Engineering Communications, College of Engineering RALEIGH, NORTH CAROLINA

Junior Graphic Designer; *FEBRUARY 2010-JUNE 2010*

Primary concern was work for the departments in the College of Engineering including course catalogs, seminar identity systems, websites and event photographer.

The Technican RALEIGH, NORTH CAROLINA

Graphic Designer, Photographer; *JANUARY 2009-AUGUST 2010*

Nightly layout designer, created infographics, placed photos and stories in a coherent fashion while adhering to the Technician design guidelines.

Token Energy: Pack Pulse RALEIGH, NORTH CAROLINA

Head Designer, Interaction Designer; *DECEMBER 2009-JUNE 2010*

Led a team of four student designers in designing and proposing a web interface for Pack Pulse's online presence, while coordinating with business and computer science students. We collaborated to design interactive information graphics for working LCD screens connected to meters, showing live energy usage readings within student dorms and various campus locations.
